

TECHNICAL DATA SHEET

Reference: 90.103.86

Description: Type IIR surgical mask for respiratory protection.

Packaging: Box of 50 units.

Colour: Blue (outside)/ White (inside).

Size: One Size. Adult. Sizes 17,5cm x 9,5cm.

Effectiveness: Bacterial filtration (EFB) \geq 95%.

Composition: Three layers of non-woven fabric filter material. Fixing by elastic bands. Moldable nose clip. Free of latex, fiberglass and harmful odours. Hypoallergenic.

Certification:

In accordance with UNE-EN 14638: 2019 + AC: 2019 Standard.

Differential pressure test according to UNE-EN 14638: 2019 compliant (<40Pa / cm²)

Microbiological cleaning test according to UNE-EN 14638: 2019 compliant (\leq 30 CFU / g).

Flammability level for textile material certified by Nelson Laboratories.

Synthetic blood penetration test according to ASTM F1862 and ISO 22609 compliant (\geq 16.0 kPa)

Particle filtration efficiency test according to ASTM F2299. 0.1 μ m Particles (EFP) \geq 99%

Classification s/R.D. 1591/2009 and European Directives 93/42/CEE and 2007/47/CE:

Class I non sterile

Application: Designed and manufactured specifically for use in a sanitary, hospital environment with high hygiene and protection requirements (non-intensive use). Splash resistant, a very relevant aspect for dentists and healthcare staff.

Caution: Personal Use. Single Use.
